

## SEHAUC List of Regional Agreements / Good Practice

Issue	Relevant CoP, Legislation	SEHAUC Reference	Agreement / Good Practice
Water from chambers / boxes	SROH S.11.4.3 (and the NfG)	SEHAUC inspections training Nov 2014	SU to install Outlet pipe. Authority to tie outlet pipe into highway drainage
Plans for TM docs and TTRO's	N/A	SEHAUC Mins Dec 2016	Google maps 'or similar quality' required as a minimum
Plans for PTS	N/A	SEHAUC June 2015	This has been discussed at SEJAG and general opinion is that full CAD design is not required & Google maps, with sign placing & head locations would suffice for most locations.
Intervention levels for rectifying SRV of covers	HA104/09	SEHAUC mins June 2015	Best Practice as being HA104/09 Low risk sites = 45, High risk sites = 65. HA's to determine risk of site as per their own policies. No disagreement to this approach was flagged.
Surfaces covered by dressings		SEHAUC Mins Dec 2017	HA's to note original structural surface when covering with an SD or similar
TTRN's for Immediate works		SEHAUC mins March 2018	SEHAUC agreed that a TTRN can be retrospective to deal with the immediate nature of the issue, with the promoter to provide transparency & justify that the works do fall under the immediate banner
S74's for road markings not being replaced	S74 NRSWA	SEHAUC mins June 2017	HA's can legally use S74 for non replacement of road markings, but should be reasonable and only where appropriate. What is being charged has to be reasonable & related to what is found for example, use of the mitigated £100 charge. SEHAUC also agreed that lines could be defected as per current custom & practice, and that a 2 hour 'defect' would get a quicker response.
Permission for two way TTL's and 7 day notice period	TSRGD	SEHAUC mins March 2003	The new Traffic Signs Regulations and General Directions 2003, effective from 31 January 2003 has changed the requirements where permission is needed for two way portable traffic signals. The advance notice required by highway authorities in the South East is seven working days.
Manual management of TTL's	TSRGD	SEHAUC Mins Sept 2018	Conditions relating to manual management should provide a rationale

SEHAUC Regional Agreements As At July 2020

			behind the condition and desired outcome.
Temp obstruction sign	Safety at Streetworks CoP	SEHAUC Mins Sept 2018 SEHAUC AWP SE/72/43	TM type should be Stop / Go.
Notification of Streetworks licenced under S50 of NRSWA	Schedule 3 of NRSWA.	SEHAUC discussion via email July 2020	It has been agreed, that recording of S50 licences as a permit activity on Street Manager fulfils the purpose of Notification under paragraph 1 of Schedule 3 of NRSWA.
